DETAILED ACTION

Election/Restrictions

Although the examiner believes claim 16 to be an invention separate to those in claims 1-15, and 17-21, the search was not considered burdensome. Accordingly, no restriction was made.

Allowable Subject Matter

Claims 1-21 allowed.

The following is an examiner's statement of reasons for allowance: a straw tube as in claims 1, 14, 15, 17, and 18 with a thin layer of B₄C or an electrically conductive layer with a content of ¹⁰B of at least 10 wt% was not found in prior art. Additionally, an end fitting such as the one in claim 16, with a twister element and a cylindrical envelope being passable of a gas when installed within a straw tube body, was also not found in prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
